

Key People

Management Team

Healy & Co professionals have played instrumental roles in the development of modern day telecommunications. Our core group offers deep insight and intellectual capacity in carrier-class network communications. Key team members include:

Eileen Healy is Chief Executive Officer of Healy & Co, a successful telecom network engineering services company she founded in 1995, focused on designing next generation and existing telecom networks. Eileen combines deep experience designing large public networks, strong analytical and strategic skills, and years of successful service delivery to maintain Healy & Co's key role in major telecom infrastructure projects. Her experience ranges from hands-on telecommunications engineering to industry analysis at such well-known companies as AT&T, Pacific Bell Mobile Services and the Gartner Group. In the broader industry, Eileen has served as an officer in ATIS and is currently the Finance and Budget Chairwoman for the QuEST Forum. She holds a patent for a market demand forecast methodology and has used this tool in strategic network studies for global industry associations. Eileen holds an electrical engineering degree from the University of California at Berkeley and is a member of the IEEE.

Richard Collins is a key strategic thinker at Healy & Co and also serves as Healy's Chief Financial Officer. Rich's industry experience is world-class having held senior financial positions at several subsidiaries and divisions of SBC Pacific Bell. He also was the founder and CEO of The Messaging Alliance, a joint venture of Bell Atlantic, Pacific Telesis, Ameritech and NYNEX where he guided the industry toward standardized unified messaging. Rich is a graduate of Harvard Business School's Executive MBA program and UCLA (BA in economics).

Helping You Connect®

Byron McDaniel is Vice President of Operations for Healy & Co, a telecom network engineering services company focused on designing next generation and existing telecom networks. Byron is a retired veteran from AT&T with over 29 years experience, with the last 12 years of his career in the position of Vice President of Construction & Engineering for AT&T West. There, he directed over 5,000 team members in the planning, design, and construction of outside plant network infrastructure. Byron combines an effective management style with a broad knowledge of telecom operations and networks. He holds a BS in Finance from Missouri State University and a Masters of Telecommunications Management from Washington University in St Louis.

Dennis Seace is the Senior Manager in charge of Healy's Provisioning organization. He assures consistency and quality in these critical services for Healy customers by both managing internal processes and metrics and managing the carrier experience for our customers. Meeting customers due date is Dennis' primary focus. Staying abreast of changes in LEC and other carriers process, tariffs as well as working on streamlining the inter-carrier special and switched access ordering processes is also his responsibility. Dennis joined Healy with experience in both the cable and telecom worlds notably responsible for service delivery for both Comcast Cable and Reliance Telecom.

Chuck Hensley leads Smart Project® programs at Healy & Co. Prior to Healy, Chuck served as a senior executive at an RBOC and a competitive carrier where he managed multi-billion dollar capital budgets. Through these experiences in both business and technical management skills, Chuck offers a unique ability to make balanced recommendations to Healy customers. Chuck completed the Senior Executive Program at Stanford University Graduate School of Business and holds a BA from California State University at Long Beach.
